< Other Lists? what matches 614

~~An~~ NISAC - proposal to NISAC
      no clear path

Corina – Text analysis
    Algorithms for words in text
    Similarity matrix
        Suggests similar keywords
            rEML files with words
    eXist-based

Partnering good
Multilingual – involve ILTER folks?
    Taivan has done a lot
    Paper in progress
GEMET – shallow – depth + scope   Europe lang.

plan
VTC → Lisa Soley – MBII Thesarus contact
        Mike Frame – Boss   good to
                                            } capture
                                              for
                                              sites
                                              as well
    User-provided ten us really critical
    Metadata quallity controll could use
        word lists

Web-based interfaces – Wikipedia for
    input on definitons + relationships
    Drupal module?

Something outside metacat to rapid
    prototype – re keywording

need job
good!   "LTER standard" terms – need to be ready
                                        for ontologies

* **Immediate task**

    Look at Browse hierarchy
    replace with something 10X
    (500 - 1000 terms) 4 levels deep
    instead of 2

use NBII hits
    insert in test Metacat
    (can be automated)
    potential pitfalls

Meeting
< List of next activities - SOH
< 1 page white papers for plans

    CI implementation - Demo projects
    refine at meeting
